## **FMA Announces the Launch of its Software Solutions Unit**

### **Willie Vega Takes on Lead of a New FMA Business Unit as Manager, Software Solutions**

**February 11, 2009 — New York, Chicago**— FMA (Fiscal Management Associates, LLC), a leading national consulting firm to nonprofits, is pleased to announce the appointment of Mr. Willie Vega as Manager, Software Solutions. Mr. Vega will lead FMA's nonprofit fiscal software consulting and implementation team as they serve nonprofits throughout the country with cost sensitive software solutions. The establishment of this unit and Mr. Vega's appointment denotes a significant milestone in FMA's growth.

Mr. Vega and his team will help nonprofit organizations plan and implement accounting software into their daily operations and fiscal infrastructures. "By taking on this new role, my team and I look forward to meeting with nonprofit financial leaders throughout the country and supporting them to integrate efficient and effective software and reporting systems tailored to their organization's needs." When asked how these services fit in today's challenging financial times, Willie answered, "In light of the current economic climate, nonprofits need immediate access to accurate financial data they can trust as they face very tough decisions, often on short notice - our team is here to help them implement those systems so they can respond quickly and effectively."

Depending on the level of service needed, Mr. Vega and the implementation team will work with an organization's fiscal leadership to review and update the chart of accounts, implement comprehensive reporting systems, security controls, and other system designs. The team may also look at integrating other fundraising, payroll and billing software solutions based on the organization's specific needs. FMA compliments its installation team with expert trainers who design and deliver personalized software training programs.

Mr. Vega joined FMA upon its founding in 1999 and has been involved in implementing accounting software programs and providing training on their use, developing financial management and reporting systems, and preparing audits for over one hundred nonprofit organizations in the New York City area. The FMA Software Solutions team also includes: Jonathan Braver, Senior Consultant; Alex Gonzalez; Junior Consultant; and Benjamin Taylor, Associate Consultant. Mr. Vega's team carries over 20 years of experience in planning and implementing nonprofit accounting software solutions. To contact Mr. Vega and learn how he and his team can help you, please call (646) 403-8040 or visit the FMA website, [www.fmaonline.net](http://www.fmaonline.net) to learn more about FMA's comprehensive nonprofit services.
